Kein Teil des Werkes darf in irgendeiner Form (Druck, Fotokopie, Mikrofilm oder ein anderes Verfahren) ohne schriftliche Genehmigung der FernUniversität reproduziert oder unter Verwendung elektronischer Systeme verarbeitet, vervielfältigt oder verbreitet werden.

Der Inhalt dieses Studienbriefs wird gedruckt auf Recyclingpapier (80 g/m², weiß), hergestellt aus 100 % Altpapier.

Table of Contents

List of Figures	X
List of Tables	XII
1 Introduction	14
1.1 Text and chapter architecture	14
1.2 What is educational technology?	15
2 Foundations I: learning theory	19
2.1 Learning theory	20
2.1.1 Overview	20
2.1.2 Behaviorism	21
2.1.3 Cognitivism and human information processing	22
2.1.4 Constructivism	23
2.1.5 Connectivism	25
2.2 Learning domains, levels and style	26
2.2.1 Learning domains	26
2.2.2 Learning level and type	27
2.2.3 Learning style	30
2.3 Metacognition, reflection and learning strategies	33
2.4 Human information processing and constraints	35
2.4.1 Cognitive load theory	35
2.4.2 Cognitive ergonomics, usability and HCI	37
2.5 Summary and conclusion	39
3 Foundation II: pedagogy	42
3.1 A very short history of instructional design theories	43
3.2 Pedagogic strategies and methods	44
3.2.1 Families of pedagogic strategies	44
3.2.2 Pedagogic methods/tactics	47
3.2.3 Analytic dimensions to describe pedagogic strategies	47
3.2.4 Conclusion	51
3.3 Instructional design models and methods	51
3.4 Non-pedagogical strategies and technology	52
3.5 Conclusion	53
4 Foundations III: communication and affect	54
4.1 Computer-mediated communication	55

4.2	Theory of computer-supported collaborative learning	57
4.3	Motivation and affect.....	61
4.3.1	Engagement	64
4.3.2	The ARCS instructional design model	65
4.3.3	Gamification	66
4.4	Summary and conclusion	68
5	Foundations IV: digital literacies and 21st century skills.....	69
5.1	Digital learner competences	73
5.2	Teacher and designer competence	76
5.3	Summary and conclusion	78
6	Technologies in education	80
6.1	A short history of educational technology	81
6.2	Delivery methods	82
6.3	Hardware and software evolution	84
6.3.1	Digital devices	84
6.3.2	From construction kits and models to digital design and fabrication	85
6.3.3	Software evolution.....	86
6.3.4	The web as main software delivery platform.....	87
6.4	Mobile and flexible learning	90
6.4.1	Affordances of mobile technology for new pedagogies	91
6.4.2	The “apps” evolution.....	94
6.4.3	The future of mobile learning.....	95
6.5	The media debate	95
6.6	Open educational resources	98
6.7	The role of standards	100
6.8	The future of e-learning	103
7	EdTech 1: overview	104
7.1	7.1 Types of educational technologies.....	105
7.2	Learning I models and technology	110
7.3	Learning II models and technology	111
7.3.1	A note on concept learning.....	112
7.3.2	Guided discovery learning	114
7.3.3	Inquiry-based learning.....	115
7.3.4	Problem-based learning.....	115

7.3.5	Simulation and gaming.....	116
7.4	Learning III models and technology.....	118
7.4.1	Project-based learning	120
7.4.2	Project methodology-based learning.....	121
7.4.3	Case-based learning	122
7.4.4	Summary of learning III designs and project-oriented models.....	122
7.5	Conclusion and summary	123
8	EdTech 2: methods and design tools for sequencing.....	124
8.1	From programmed instruction to mastery learning.....	125
8.2	Sequencing of e-learning bricks.....	126
8.3	Learning design tools.....	127
8.3.1	Compendium LD	129
8.3.2	Tables	130
9	EdTech 3: contents	132
9.1	Learning objects in e-instruction	133
9.1.1	The learning object.....	133
9.1.2	E-learning content standards	135
9.1.3	E-learning authoring environments.....	135
9.2	Structured textbooks	136
9.2.1	Electronically delivered textbooks.....	136
9.2.2	Pedagogically structured e-books.....	138
9.2.3	Interactive textbooks	139
9.3	Hypertext	140
9.3.1	Hypermedia genres used in education	142
9.3.2	Hypertext design guidelines.....	144
9.3.3	Cognitive flexibility hypertext.....	146
9.3.4	Towards pedagogically designed hypertext.....	148
9.4	Wikis.....	148
9.5	Multimedia animations.....	150
9.5.1	Multimedia authoring environments.....	151
9.5.2	Design principles for multimedia animation	152
9.6	Concept maps.....	153
9.6.1	Kinds of concept maps and software.....	154
9.6.2	Concept maps in education.....	155

9.6.3	Mind maps.....	157
9.7	Educational audio, video and screen casts	158
9.7.1	Audio and video software and formats.....	159
9.7.2	Screen casts	159
9.7.3	Use of educational videos.....	160
9.7.4	Videos in MOOCs.....	161
9.8	Conclusion and outlook	164
10	EdTech 4: interactive learning contents and environments	166
10.1	The concept of interactivity and interactive multimedia.....	166
10.2	Computer-based training	169
10.3	Microworlds.....	170
10.3.1	Example: AgentSheets.....	173
10.3.2	Example: the GenScope, BioLogica and Geniverse	175
10.4	Simulation.....	178
10.4.1	Pedagogical effectiveness of simulations	181
10.4.2	Example: SimQuest	182
10.4.3	Example: PHET simulations	183
10.4.4	Example: Go-Lab	184
10.4.5	Example: NetLogo	185
10.4.6	System dynamics.....	187
10.5	Augmented, virtual and mixed reality	188
10.6	Business gaming and simulation.....	188
10.6.1	Markstrat.....	189
10.7	Game-based learning	191
10.8	Intelligent tutoring systems	197
10.8.1	A short introduction to expert system technology.....	198
10.8.2	History and discussion	199
11	EduTech 5: computer-mediated communication and collaborative learning	202
11.1	General CMC technology.....	203
11.1.1	E-mail, mailing lists, and forums	203
11.1.2	Chats, instant messaging and microblogs.....	204
11.1.3	Groupware and CSCW.....	206
11.1.4	Blogs.....	207
11.1.5	Virtual environments.....	209

11.2	Interaction forms in mainstream e-learning.....	212
11.2.1	Interactive teleteaching.....	212
11.2.2	E-tutoring.....	213
11.2.3	E-moderation	213
11.3	Knowledge construction environments	215
11.4	CACL scripts	217
11.4.1	The ArgueGraph script example.....	219
11.5	Social software and social computing	220
11.6	Conclusion	229
12	EduTech 6: tools for integration.....	230
12.1	Frameworks to look at integrated learning environments.....	231
12.2	Classroom technology	232
12.2.1	Espaces numériques de travail	233
12.2.2	CoolModes	234
12.2.3	Graasp open platform (DOIT).....	235
12.2.4	Adventure Academy, ABCMouse and Starfall	235
12.3	Learning management systems.....	237
12.4	MOOCs.....	240
12.4.1	MOOC platforms.....	241
12.5	Designing scenarios for web 2.0 technologies.....	242
12.6	Campus portals	244
12.7	Organizing materials and information – repositories	244
12.8	Home-made activity portals	245
12.9	Workflow systems	248
12.9.1	The LAMS system	248
12.9.2	FROG	249
12.9.3	Business process modeling systems.....	250
12.10	Learning e-portfolios	252
12.11	Conclusion integration tools.....	255
13	EdTech 7: productivity tools.....	257
13.1	Cognitive tools	257
13.2	Personal learning environments	262
13.2.1	The Epsilen framework	262
13.2.2	Elgg	263

13.2.3	Home-made environments with webtops	264
13.2.4	Conclusion	265
14	EduTech 8: student follow-up and assessment.....	267
14.1	Scaffolding, mentoring and coaching	267
14.1.1	The concept of scaffolding	268
14.1.2	Coaching and mentoring	269
14.2	Learning analytics and student tracking tools.....	270
14.2.1	Learning analytics.....	270
14.2.2	Student tracking tools in learning management systems.....	273
14.2.3	Use of general-purpose web analytics tools	274
14.2.4	Learning process analytics	274
14.3	Assessment tools.....	277
14.4	Towards more informed teaching and learning?.....	278
15	EdTech 9: technical standards and formats	280
15.1	Overview of major educational technology standards	280
15.2	Computer science design languages and formalisms	283
15.2.1	UML – the Unified Modeling Language	284
15.2.2	The XML formalism	285
15.3	IMS Content Packaging and Metadata	288
15.3.1	Beyond simple learning objects	289
15.3.2	Metadata	289
15.3.3	Simple menu-based sequencing	291
15.3.4	SCORM 1.2 Sharable Content Objects.....	292
15.4	Simple Sequencing, QTI and SCORM 2004	294
15.4.1	IMS Simple Sequencing	294
15.4.2	IMS Question & Test Interoperability (QTI)	296
15.5	IMS Learning Design	296
15.5.1	Overview table of LD elements	297
15.5.2	Tools and systems	300
15.6	IMS Common Cartridge	301
15.7	xAPI, LRS and cmi5.....	302
15.8	Learning Tools Interoperability (LTI)	303
15.9	Conclusion	304
16	Research and design methodology	305

16.1	Design-based research.....	306
16.2	Instructional design methods.....	308
16.3	User-centered design methodology	311
16.4	Development methodology for researchers.....	312
16.5	Evaluation methodology.....	313
17	Innovation and change management.....	315
17.1	The dynamics of innovation and change	315
17.2	Bates' Change Management Principles	318
17.3	Expansive learning	319
17.4	Teacher development models with respect to ICT usage	321
17.5	The relationship between research and practice.....	322
18	Conclusion	325
18.1	Formats and standards	326
18.2	Authoring tools, microworlds and simulation environments.....	327
18.3	Delivery systems and online productivity tools.....	328
18.4	Learning content types, designs and technology overview	330
18.5	Further reading.....	331
18.6	Online resources.....	333
	Glossary	334
	Bibliography	343

List of Figures

Figure 1: Mind map: Introduction to educational technology	15
Figure 2: Mind map: learning	19
Figure 3: Mayer's (2001) multimedia learning model	22
Figure 4: ISO 9241 usability framework	39
Figure 5: Mind map: pedagogy	42
Figure 6: Fink's significant learning experience	47
Figure 7: Reeves's (1997) pedagogical dimensions of computer-based education	50
Figure 8: Additional foundations of educational technology	54
Figure 9: Laurillard's conversational framework	56
Figure 10: Matrix of behavioral and psychological activity	65
Figure 11: Mind map: digital competency	69
Figure 12: Digital learning literacy	70
Figure 13: Seven elements of digital literacies	71
Figure 14: E-learning competence dimensions: digital literacy, communication and collaboration, metacognitive skills, and learning culture	74
Figure 15: New media framework for e-learning	75
Figure 16: Revised version of the TPACK image	76
Figure 17: Mind map: technologies in education	80
Figure 18: Mind map: mobile and flexible learning	90
Figure 19: Mind map: EdTech overview	104
Figure 20: Mind map: learning I (know that)	110
Figure 21: Mind map: Learning II (skills, procedures and problem solving, complex concepts)	112
Figure 22: The inquiry circle	115
Figure 23: Mind map: Learning III (learning in action)	119
Figure 24: Mind map: sequencing methods and tools	124
Figure 25: Mind map: technologies for contents	132
Figure 26: Mind map: interactive learning	166
Figure 27: The landscape of game-based learning	193
Figure 28: Typical architecture of an ITS system	198
Figure 29: Mind map: computer mediated communication and collaborative learning	202
Figure 30: Time/space groupware matrix	207
Figure 31: Community of inquiry models (left: original model, right: new model)	222
Figure 32: Mind map: tools for integration	230
Figure 33: BPMN workflow for a simple reading activity	251
Figure 34: Mind map: productivity tools	257
Figure 35: Mind map: student follow-up and assessment	267
Figure 36: The collaboration management cycle	276
Figure 37: Mind map: standards and formats	280
Figure 38: Mind map: research and design methodology	305
